

UC Berkeley InterVarsity Christian Fellowship/USA Undergraduate Covenant

We, students of UC Berkeley's InterVarsity Christian Fellowship write this covenant to ensure a commitment to a shared mission and a relationship between our sister fellowships. As followers of Jesus, in response to God's love, grace and truth: we are working to establish and advance a witnessing community who follows Jesus as Savior and Lord: growing in love for God, God's Word, God's people of every ethnicity and culture and God's purposes in the world. We together are challenged toward pursuing biblical unity, equality, and partnership on campus amidst a diversity of religious and cultural faith experiences.

As a unified community of Christian Fellowship comprised of our distinct ministries, we agree to communicate with one another throughout the year, as well as to an annual review and renewal of the covenant. We understand that the fulfillment of each fellowship's mission is intertwined with the fulfillment of one another's mission. Consequently, we will honor our partnerships with biblical challenge, thanksgiving and blessing.

The following principles are intended to be guidelines for our practical outworking of partnership on campus and not intended to limit relationship, and may be changed by mutual consent of fellowship leaders.

- We agree to an annual review and renewal of this covenant
 - Student leaders in each fellowship will review the past year's relationship and plan for the coming year.
 - Each fellowship will corporately read and affirm the covenant annually
- We agree to be mutually supportive in action & prayer
 - Keeping up-to-date on fellowship happenings, needs and prayer requests
- We agree to welcome new students each year with at least one joint event.
- We agree to provide venues of dialogue and interaction on and off campus
 - Joint Worship Events/ Fall Conference/ Mission trips/ Leadership Training/ Mark Manuscripts
- Fellowships agree to jointly seek the guidance of staff of InterVarsity Christian Fellowship
